## EDUCATION

---

### "Dunarea de Jos" University

Bachelor's Degree, Systems Engineering

Galati, Romania

2023 - 2027

### "Emil Racovita" Theoretical High School

Natural Sciences

Galati, Romania

2019 - 2023

## TECHNICAL SKILLS

---

**Programming Languages:** HTML, CSS, JS/React, Python, C++, Git

**Libraries and Tools:** Tailwind, Next.js, PostgreSQL, Git, Node.js, Docker, Firebase, PHP, Pandas, Numpy

## WORK EXPERIENCE

---

### Web Developer

Freelancer

December 2025 - Present

- Developing responsive websites using HTML, CSS, JavaScript, and modern frameworks (e.g., React).
- Implementing back-end functionalities with Node.js, PHP, and Python.
- Collaborating with clients to define requirements and deliver projects on time.
- Managing hosting environments, domains, and databases.

### Trainer — Internship

Logiscool - Romania, Galati

May 2025 - July 2025

- During my internship at Logiscool, I deepened my knowledge in digital education and programming for children and adolescents.
- I contributed to the development and implementation of interactive camps, supporting students in learning programming, robotics, and technology concepts in a creative and accessible way.

## PROJECTS

---

- **ANDZ.ro - Personal Portfolio** — Technologies: HTML, CSS, Tailwind CSS, JavaScript (ES6+), GSAP, Lenis, Firebase [ANDZ.ro](#)
- **AzzistBOT - Full Stack Technology** — Meet Azzist – a complete, modular, and 100% free virtual assistant designed to elevate web interaction. It's not just a "wrapper" over an API. It is a complete ecosystem (Frontend + Backend + Generator) that transforms a passive visitor into an engaged user. My goal was to create something that anyone can use for their website, with no hidden costs. Get yours, for free. [View Project](#)
- **CORELLE - Website** — A concept website created for a fictional nail product brand, built from scratch. Features include a user authentication system, review system, shopping functionality, order tracking, and product wishlist. [View Project](#)
- **BASS Industries - Concept Website** — A concept website created for a luxury fictional hotel, built from scratch. Features include a comprehensive reservation system and review system. [View Project](#)
- **Python, C++, Lua Projects** — Various personal projects using Python, C++, and Lua are available on my GitHub profile. [Click Here](#)

## PROFILE

---

- I am a 21-year-old student currently studying Systems Engineering at the Faculty of Automation. I am passionate about web development and enjoy creating intuitive, visually compelling websites for users. I am a dedicated and detail-oriented individual who persists until the desired result is achieved.

## SOFT SKILLS

---

- **Problem Solving & Critical Thinking:** Ability to analyze complex technical challenges and implement efficient solutions.
- **Communication & Teaching:** Strong verbal and written communication skills, with experience in explaining technical concepts to non-technical audiences.
- **Adaptability & Self-Learning:** Quick learner with a passion for staying updated with the latest web technologies and frameworks.
- **Project Management:** Capable of managing freelance projects, meeting deadlines, and handling client requirements effectively.
